

The word "ANKI" is rendered in a bold, white, sans-serif font. To the left of the letter "A" is a thick white vertical bar that extends from the top of the frame down past the bottom of the word. To the right of the letter "I" is another thick white vertical bar that extends from the top of the frame down to the level of the word "ANKI".

T E M P L A T E

INTRODUCTION

Welcome to the Anki Template documentation! This guide will walk you through the steps to effectively use and customize an Anki template for your study needs. Anki is a powerful tool that utilizes spaced repetition to help users memorize information more efficiently. By following this guide, you'll learn how to import, edit, and customize your Anki template to create flashcards tailored to your learning objectives.

TABLE OF CONTENTS

1. Import Template to Anki
2. Edit Content
3. Add Field
4. Colors Customization
5. Font Size (Front & Back Template)
6. Hyperlink

IMPORT TEMPLATE TO ANKI

- 1. Download the Template:** Ensure you have the Anki template file (.apkg) ready on your computer.
- 2. Open Anki:** Launch the Anki application on your computer.
- 3. Import the Template :**
 - Go to "File" in the menu bar.
 - Select "Import".
 - Navigate to the location where your template file is stored and select it.
 - Click Open to import the template into Anki.
- 4. Verify Import:** Once the template is imported, you should see it listed under your decks in Anki.

EDIT CONTENT

- 1. Click Browse:** Click the "Browse" button at the top of the main window.
- 2. Select the Template:** In the left sidebar, select the deck containing your template.
- 3. Edit Each Field:**
 - Front: Edit the question or prompt.
 - Back: Edit the answer or response.
 - Toggle: Edit the answer toggle button content.
 - URL: Edit the reference URL.
- 4. Close Browser:** Click the Close button at the bottom right corner

ADD FIELD

1. Click "Fields":

- In the Anki main window, click on "Browse".
- Select the deck containing your template.
- Click "Fields" in the top menu bar.

2. Add a New Field:

- In the Fields for [your note type] window, enter a name for the new field.
- Click Add.

3. Go to the "Cards"

4. Edit the Template:

- Decide whether you want to add the new field to the Front template, Back template, or both.
- Add the field code to the desired location within the template.

```
<div class="prettify-flashcard">
  <div class="prettify-deck">{{Deck}}</div>
  <div class="prettify-field prettify-field--front">{{edit:Front}}</div>
</div>
```

Add the new field here
in Front Template

```
<div class="prettify-flashcard">
  <div class="prettify-deck">{{Deck}}</div>

  <div class="prettify-field prettify-field--front">{{edit:Front}}</div>

  <hr class="prettify-divider prettify-divider--answer" id="answer" />

  <div class="prettify-field prettify-field--back" >{{edit:Back}}</div>

  <div style="margin-top: -20px; margin-bottom: -10px; "> <div class="prettif
button" style="margin-left:-8px ; font-size: 13px; padding: 6px 12px; backg
font-weight:700; border-color: #4CBB17 ;" >READ MORE...</button>
```

Add the new field here
in Back Template

FONT SIZE (FRONT & BACK TEMPLATE)

You can change the font size for the front and back templates through the "Styling" section.

COLORS CUSTOMIZATION

You can easily change colors or apply custom colors using the browse option.

For default colors such as bold text, italic text, and underline colors, you can customize them in the "Style" section according to your preferences.

ANKI

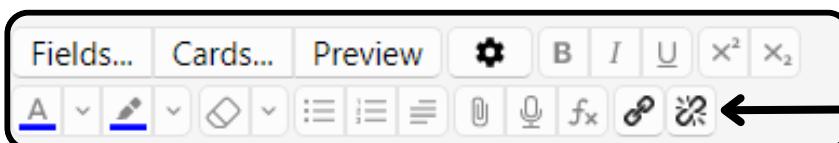

```
/* ----- COLORS */
.card,
.card.night_mode {
  /* Dark theme only */
  background-color: #1d1f27;
  --text-fg: #f8f8f2;
  --text-fg-faint: #6272a4;
  --text-bg-selected: #323543;
  --card-bg: #282a36;
  --card-border: #44475a;
  --card-box-shadow: transparent;
  --divider: #6272a4;
  --tag-fg: #282a36;
  --tag-bg: #bd93f9;
  --tag-fg-active: #6272a4;
  --tag-bg-active: #bd93f9;
  --tag-border: transparent;
  --tag-border-active: #bd93f9;
  --cloze-fg: #8be9fd;
  --cloze-bg: transparent;
  --link-fg: #f8f8f2;
  --link-bg: transparent;
  --link-fg-active: #8be9fd;
  --link-bg-active: transparent;
  --bold-fg: #ff79c6;
  --italic-fg: #f1fa8c;
  --bold-italic-fg: #ff5555;
  --underline-fg: #8be9fd;
}
```

Change the colors as you like

HYPERLINK

Make sure the Hyperlink add-on is installed in Anki. If not, download it from [**here**](#).

Once installed, you will see the option to add hyperlinks.

Hyperlink option
